Coupon Codes gihosoft.com is Safe to use and 100% virus free. All the files hosted on our server are carefully scanned before they are added to our website.Q: How can I add on top of a column in a tableview a control like the status bar in a modal view? So I have this UIViewController it's a standard UIViewController that has a navigation bar I use it in many viewcontrollers and it looks nice but I have this large black bar when I display it in a tableview and I would like to add a control like the status bar that shows the number of row that are in view and the other informations. How can I do it? A: Try This: - (void)tableView:(UITableView \*)tableView willDisplayCell:(UITableViewCell \*)cell forRowAtIndexPath:(NSIndexPath \*)indexPath { UIView \*v = [[[UIView alloc] init] autorelease]; v.backgroundColor = [UIColor colorWithRed:150.0/255 green:150.0/255 blue:0.0/255 alpha:1.0]; [cell.contentView addSubview:v];
